ALLIES UNITE IN WORLD'S GREATEST OFFENSIVE

PEACE PROPOSAL UP TO WILSON ACCORDING TO INDICATIONS

President Must Make Demands That Are Not Mere Scrap of Paper

PEACE NOT THROUGH KAISER'S IRON RULE

Experts Believe End of Hostilities May Come Within Year Declared Today

BY CARL D. GROOT
(United Press Staff Correspondent)

WASHINGTON, Aug. 21.—President Wilson today postponed discussion with his cabinet of the Pope's peace proposal in order to give undivided attention to war work.

Russia, through the embassy here, has said the Pope's proposal will not do in its present form. This, of course, has been the attitude of all the allies since receiving it.

The whole question now is what to include in the constructive reply President Wilson is expected to send. He must accept those provisions of the Pope's proposals calling for disarmament and arbitration of future international differences. He cannot accept the status quo ante provisions. He cannot admit a willingness to sit about a peace table with the German people represented by a pawn of the Hohenzollerns. He must demand guarantees that will not be regarded as "a scrap of paper" and these he believes impossible except from a democracy. He will point the way to peace for the German people but will make it clear, it cannot come through the office of the Kaiser's iron autocracy.

The first reply to the Pope's appeal appears to be a general allied offensive of tremendously increasing violence along all fronts save Russia.

That peace is ahead, is the conviction here. The Pope has laid the ground work for peace negotiations. President Wilson will give momentum to the building. Another year will see the end of the struggle, experts here now believe.

ENGLAND FIRST TO ANSWER POPE

LONDON, Aug. 21.—England, first of the belligerent powers to answer the Pope's peace suggestions, presented a formal note to the Vatican today, through British Minister Desails, declaring the Holy Father's plan would be examined "in a benevolent and serious spirit."

Cardinal Gasparri, papal secretary of state, expressed his gratification at the response.

Cardinal Gasparri said he hoped all belligerents would admit of agreement on four fundamental principles, which, he said, had already been applied by England, France, Russia, Germany and Austria. He declared President Wilson's peace note of last December implied all that was contained in the Pope's program.

It is not clear what four fundamental principles the belligerents, mentioned above, have agreed upon. So far as cable dispatches have indicated, no common ground has yet been reached by any of the belligerents officially.

STRIKE AVERTED BY INCREASED WAGE SCALE

WASHINGTON, Aug. 21.—A national strike in the shipyards working on government contracts is to be prevented by a wage increase paid by the government, it is stated today.

In his first clash with organized labor on the war work, Uncle Sam recognized the claim that the increased cost of living warrants a higher wage scale.

A commission of three representatives of all the parties to the controversy will grant the demands of labor which amount to an increase of fifty cents a day in nearly all instances.

FIRST 420 PRODUCE ABOUT 105 OF QUOTA

Out of Ninety-Nine Examined Today Thirty-One Are Disqualified

Examined today—99.
Physically disqualified—31.
Passed physical test, not claiming exemption—23.
Passed physical test, claiming exemption—45.

This morning and yesterday afternoon the doctors associated in the examination of men for Orange County District No. 1 examined ninety-nine men.

As yesterday morning, of those passed physically, one out of three did not ask exemption.

The exemption board is acting upon exemption claims upon the written evidence before it. It is the duty of the public to report to the board any conditions that appear not to have been brought out.

For instance, if the published reports show that some man has been given exemption because he has aged parents to support, if as a matter of fact the parents have been supporting the claimant, that fact should be reported to the exemption board.

Attorney Clyde Bishop is the government's representative in making appeals, and information as to inside facts concerning matters that have not been fully presented to the exemption board may be given to him.

"We want to get at the true situation," said V. V. Tubbs and S. W. Nair, chairman and secretary of the board, "and we believe it is the public's duty to aid us. We do not want to do an injustice to anyone or we do not want to discharge any person who ought not to be discharged."

The result of yesterday afternoon's and this morning's work by the board, in detail, follows:

NOT CLAIMING EXEMPTION

- 520—Ralph Alonzo Kelly, Fourth and French.
- 527—James Harrison Wright, 1002 East Pine.
- 528—Hiram Lew Wallace, Orange.
- 539—Raymond Alumbaugh, 949 W. Highland.
- 561—Roy William Barker, Orange.
- 568—Thomas C. McCollum, Orange.
- 570—Justus William Taylor, Newport Beach.
- 589—Wilbur Kenneth Getty, 622 Parton.
- 592—John Burrell, 1120 W. Second.
- 596—John Dan Boyd, Harper.
- 597—James W. Rea, San Juan Capistrano.
- 602—Willard Lyle Swartout, 421 E. Walnut.
- 605—Monroe Melbert Lambert, 303 South Broadway.
- 606—Leonard Avery Eston, Newport Beach.
- 612—Carl Earl Hofer, Laguna Bch.
- 615—Eliga Edward Whitted, Orange.
- 646—Delbert Eugene Barry, 402 Fruit.
- 647—Ralph John Mitchell, R. D. 7.
- 664—Joseph Patrick Stewart, San Juan Capistrano.
- 672—Jess B. Collar, Orange.
- 673—Frank Augustus Hanssberger, 934 W. Bishop.
- 674—Arthur Leopold Kubitz, 1377 Santiago.
- 546—Herbert C. Wuesthoff, R. D. 1.

CLAIMING EXEMPTION

- 530—George Washington Coates, Yorba Linda.
- 534—Thomas W. Robertson, El Toro.
- 535—George Perry Benson, Orange.
- 536—Plaveous C. Mock, El Toro.
- 542—Charles Cannon Hinton, 610 S. Flower.
- 544—Edwin Curtis Benedict, 718 Cypress.
- 550—Walter Jay Ferris, 1059 Hick.
- 554—Alfred Sylvester Wright, 612 North Bush.
- 560—George Henry Franzen, R. D. 1.
- 565—Charles Rea, San Juan Capistrano.
- 571—Oscar John Leichtfuss, Orange.
- 576—Rudolf Ludlow Grenke, 509 S. Ross.
- 581—Oscar Anton Schildmeyer, Orange.
- 588—Charles B. King, Laguna Bch.
- 591—Henry Fielding Martin, Tustin.
- 598—Charles Lowell Cotant, 1912 N. Broadway.
- 599—Arley Henry Leck, Tustin.
- 601—Ernest Brantley Davis, Orange.
- 607—Franklin Moses Griset, Tustin.
- 609—Wander Jacobus Vander Bruggen, 1021 W. Second.
- 610—William Ernest Sterk, 143 S. Parker.
- 611—Frank Marion Berry, R. D. 3.
- 613—Garland Chester Ross, 1102 S. Main.
- 624—Ellis Earl Campbell, Orange.
- 629—Harold Floyd Garland, 322 W. Eighteenth.
- 630—Ralph Baker, R. D. 7.
- 631—James Dempsey Teague, Glorietta.
- 632—Warren Rutgers Freeman, 2527 N. Santiago.
- 638—George F. Bandick, Orange.
- 640—Hugh DeBerry, Yorba.
- 641—Ernest Wheaton, Orange.
- 643—Lester LeRoy Buell, 822 Patton.

(CONTINUED ON PAGE 6)

With But Few More Exemptions to Pass On, Estimate Made

The first list of 420 men on the draft list of Orange County District No. 1, comprising the First, Fourth and Fifth Supervisorial districts, will furnish approximately 105 men in the district's quota of 181.

By placing the figures at 105, the number may be stretched to the limit. Re-examination of men by mobilization camp physicians may knock out a number of men. Exemption appeals may take away a few.

The examination of the first 420 names on the list resulted in bringing in sixty-five men who passed the physical tests and who did not claim exemption. Exemption claims so far refused and likely to be refused will produce probably thirty-six more names. Cases continued and men certified as not appearing may not produce a single soldier, yet they reasonably may be counted upon to add several names to the draft list.

That will leave approximately seventy-five men to be furnished by the new list of 450 names which the exemption board and the physicians are now giving the once over.

Has Wife Only

Charles L. White of 1124 West Fifth street is going to take an appeal from the decision of the examination board which certified him into the service. White filed a claim for exemption upon the ground that he had a wife dependent upon him. A published report that his claim was for a wife and child was an error. White failed to put in the affidavit made out, showing a wife only dependent upon him, but went to Newport Beach and failed to file the proof. This morning he asked for an appeal blank.

Nearing the End

The exemption board is nearly through with its work of passing upon exemption claims filed by men who passed the physical examinations under the first call of men whose order numbers are from No. 1 to No. 420. Yesterday it went through order numbers between No. 250 and No. 350. There remains those between No. 350 and No. 420. That work will probably be completed this afternoon. Yesterday the exemption board granted thirty-three exemption claims and refused five. The details follow:

EXEMPTIONS GRANTED

- Herbert Heanes, 919 West First, wife and child.
- Roy M. Walton, 630 N. Parton, wife and child.
- Nicholas D. Meyer, 1112 French, wife and three children.
- William Berman, 809 E. First, wife, child and expected child.
- Gustav Lemke, Olive, wife and child.
- Vivian Fenley, 822 E. Second, wife and two children.
- James J. Hanna, Olivé, wife and four children.
- Chas. M. Adams, 1315 E. Second, wife and expected child.
- Josh G. Van Horn, R. D. 4, Santa Ana, wife and child.
- James A. Edwards, Orange, wife and child.
- Earl Mix, Los Angeles, wife and two children.
- Hubert J. Planchon, Fairview Ave., wife and child.
- Thomas A. Gidcomb, 1110 West Pine, wife and child.
- Paul A. Ristow, Orange, invalid wife.
- Thomas Coronado, Anaheim, R. D. 3, wife and two children.
- Francis K. Ritchie, Olive, invalid wife.
- Justus F. Craemer, Orange, wife and child.
- Catalina Rios, El Toro, mother and two brothers.
- Carl L. Thomas, Orange, wife and expected child.
- Tedford C. Shaw, 1029 W. Fifth, wife and child.
- Glen M. Breeding, 1027 W. Pine, wife and two children.
- Arthur A. Alvarez, Peralta, mother and brother.
- Harry L. Ebel, Tustin, wife and two children.
- Clarence E. Keswick, Orange, wife and child.
- William E. Kern, 116 Spurgeon, wife and child.
- John R. Kiser, Tustin, wife and two children.
- Lewis W. Dixon, Newport Beach, wife and expected child.
- Frank Musselman, 602 W. Fourth, wife and child.
- Chester M. Scott, 311 W. Chestnut, wife and two children.
- Charles Keith, R. D. 7, Santa Ana, wife and two children.
- Harmon Buckley, 610 East Fourth, wife and two children.
- Earl S. Young, R. D. 7, Santa Ana, wife and child.
- William B. Hawkins, 813 W. Fifth, wife and child.

EXEMPTIONS REFUSED

- Clarence E. Wilson, Orange, wife.
- Floyd E. Shook, Yorba Linda, religious belief and wife.
- Otto C. Rohrs, R. D. 3, Orange, wife.

P. E. IS TO GET FREIGHT FROM ORANGE, ASKS FRANCHISE

Going North, Line to Hook on to Tustin Branch of the Southern Pacific

The Pacific Electric is getting ready to build its long-contemplated line between Orange and the Southern Pacific road known as the Tustin branch.

This morning the P. E. asked the Board of Supervisors to award it a franchise from Orange north to the Tustin branch.

The P. E. already has a franchise from the city of Orange for an extension of its present Santa Ana to Orange line. That extension, as it appears on paper, goes north paralleling the Santa Fe to Collins avenue, the center line of which is the north city limit of Orange. The county is asked for a franchise allowing the P. E. to cross the county's half of Collins avenue and to cross Vista street, which is the only street between Collins avenue and the Tustin branch.

That this line would be built became an announced expectation when the P. E. failed to hook up for freight connections in Santa Ana. The P. E. endeavored to get a franchise from the Santa Ana city board for a connection with the S. P. on North Main street. That request was denied.

The P. E. has long desired to get some of the many scores of carloads of citrus fruit sent from Orange. It is part of the P. E.'s general policy, evidenced in its recent request for a franchise for a line through Tustin to Irvine, of reaching out for the initiation of transcontinental freight.

PORK CHOPS TO GO TO 50 CENTS POUND, STATED

CHICAGO, Aug. 21.—Pork chops soon will be fifty cents a pound retail.

Ham and bacon will be even higher.

Meat generally is going up. Herbert Hoover's fear of a "world meat famine" is not overestimated.

These were the conclusions drawn for the United Press today by Robert Miller, president of the Chicago Retail Grocers' Association, from Hoover's meat report.

Danger of a meat famine has been known to Chicago retail dealers for some time, Miller said.

"There is but one remedy," he continued. "Uncle Sam must devise some regulation that will make it more profitable for the farmer to feed his grain to cattle than to sell it. As long as the farmer can get \$2.00 for corn on a quick sale, he is not going to feed it to cattle and wait for the same profit."

"Shrinkage in the supply of corn fed cattle and good beef becomes more alarming daily."

Retail Prices Up
The rapid rise in wholesale hog prices is boosting the retail price of pork proportionately. Retailers declared. Pork loin that sold for 32 cents Saturday, today was 32½ cents. A 50 cent advance in hogs on the hoof over last week's prices was blamed for this.

The wholesale price of hogs August 1 was \$6.00 higher than a year ago and twice as high as on August 1, 1914. Hogs today were \$4.00 higher than August 1 this year, selling close to \$20 a hundred pounds.

Bacon retailed for 30 to 35 cents last week, today was 35 to 40 cents a pound. Ham was selling at 45 cents today on a corresponding rise.

Fred J. Kamrath, Olive, wife.
Myron A. Warner, R. D. 4, Santa Ana, wife.

CASES CONTINUED

Julian D. Matthews, transfer to Denver, Colo., wires for permission to enlist as regular army musician.
Eugene S. Camfield, 912 N. Main, wife.
Thomas L. Dray, transfer to Phoenix, Ariz.
John F. Gerken, Orange, wife.

BATTLE RAGING COVERS FRONT ON WEST FOR 435 MILES

Assaults Covered By Carefully Timed Artillery Preparations

BY HENRY WOOD
(United Press Staff Correspondent)
THE FIELD, Aug. 21.—The greatest battle of the world is being fought today.

From the seacoast to the Swiss frontier—over 435 miles—the allied forces were fighting a practically continuous offensive.

France's great assault at Verdun, still driving on today, completed the chain of battles which were welded in the force of war into one gigantic action of unprecedented extent and power.

The great battle started with the Anglo-French offensive in Flanders extended to the British offensive at Lens, thence to the French attacks around St. Quentin, then to the French offensives at Chemin des Dames, Moronvilliers and Verdun and concluded with heavy artillery fighting in Lorraine and Alsace down to Switzerland.

The western front has never seen such an extensive battle nor has the allies' superiority been so asserted.

With three more months of fighting weather this year, Germany's hold on the western front may become precarious before winter.

Perfect and co-ordinated strategy underlies the English and French attacks. They have been so timed as to convert all the fighting into one great battle.

Once before the allies timed such a blow, but not in the force of that which was pushing with terrific power today. On April 16, the French attacked the southern pivot of the Hindenburg line a week after the English attacked the northern pivot.

Today the French are attacking the southern pivot where the German lines hinge on their famous Meuse retreat position. The drive comes exactly two weeks after the English attack in Flanders threatened the German northern hold on the coast.

While these two huge offensives developed today, the battles around Lens, Arras, St. Quentin, along the Aisne and at Moronvilliers continued with unabated intensity.

Germany made her supreme effort in concentration of men and of artillery in the 1916 assault on Verdun. No offensive had ever reached the intensity of this one, but the French assault of today in the identical sector, had surpassed it.

Greatest Concerted Attack

The combined French and German artillery brought into the play of death, is probably the greatest concentration of weapons for a single attack the whole war has yet seen. During Sunday night's final artillery preparation by the French, although it was cloudy, and the French military rules strictly forbade the slightest glimmer of artificial light, it was able to leave Verdun at midnight and proceed to an observation point, a greater distance from the city than Douaumont, as my way was lighted by countless thousands of gun flashes. Artillery kept the night continually light. It was as though a million lightning flashes blended into one cataclysmic shock. The artillery gave light enough for the French artillery to advance with every pock mark of No Man's Land visible. The Germans brought into action giant 380 millimeter (15-inch) shrapnel shells. High in the air they exploded with a great outburst of flames and their brilliance outshone even the flaming red of the countless other flashes. After each one of these dazzling bursts the whole air seemed filled with long dragon-shaped tails, puncturing the blackest sort of smoke—the exploding shrapnel—its.

The French Leap Parapets
The French had taken the German first lines in an amazingly short time after leaping over the parapets. The Germans sent out hurry calls and massed great reserves, but in vain. Later steel struts (picked-up storming troops) were assembled for counter-attacks—several at Beaumont alone.

In all the hell of fire in the air—one picture stood out vividly. It was an attack made by a German airplane on a French observation "sausage" balloon. The French observer leaped out of his basket, but his parachute caught on the edge, leaving him suspended hundreds of feet over the earth. The German flyer darted back and deluged the air with a hail of machine gun bullets as French soldiers down below pulled frantically to bring the sausage down. When the balloon was finally brought back to earth, the observer was disintegrated, absolutely unharmed.

England Takes 80 Per Cent
"England today takes 80 per cent for war profits. We take less than 20 per cent in this bill."

"When the draft was urged we were told the tales of the 'Princess Pats' and other fighting men for England. How persuasive was the example of England when we conscripted blood! But how little that persuasion when we conscripted wealth!"

Conscript Wealth

"With unbounded enthusiasm we conscripted in a very brief period, the youth of this land. With an enthusiasm that would brook no delay on the part of any senator upon this floor, we took the youth of the land, and we sent that youth forth to fight for this nation and to die, if necessary, upon a foreign soil."

"I ask if you have the same enthusiasm for conscripting the wealth of the nation today to stand behind the lads that have gone forth to fight our battles over the seas?"

STRING MEXICAN TO TELEGRAPH POLE 25 YEARS AGO MONDAY

August 20th Anniversary of Only Lynching Ever Occurring In County

Yesterday was the twenty-fifth anniversary of the first and only exercise of mob law in the history of Orange county. About 1 o'clock on the morning of August 20, 1892, Francisco Torres was taken from the county jail and hanged to a telegraph pole at the corner of Fourth and Sycamore streets. The pole stood on the corner in front of the lot upon which the handsome business structure to be occupied by the Rankin Dry Goods Company is being built. Torres' crime was the fatal murder of Wm. McKelvey, foreman of the ranch of Madame Modjeska. McKelvey was murdered by Torres because he held out poll tax in paying Torres his wages.

The county jail was then located on Sycamore street, between Second and Third and on the site of the present city jail. Robt. Cogburn, who died here a few days ago, was on duty as night guard at the time the mob smashed in the door and took the Mexican out.

Torres killed McKelvey on the night of July 31, 1892, by sneaking up behind him and striking him with a club. Torres fled and was captured. Mesa Grande two weeks later.

McKelvey was very popular in this city, where he lived for a number of years prior to removing to the Modjeska ranch to take the foremanship of the mountain home of the famous actress. The friends determined to avenge his death and quietly organized a mob.

Hanging was planned for a few nights before it took place. Arrangements went wrong and the lynching was delayed. The delay was occasioned by Walter St. John. St. John was detailed to lay in wait in a grain shed adjoining the grain mill then located on the property on which the Register now stands and immediately across the street from the jail. St. John was to give a signal to the mob when a certain thing developed. St. John went to sleep and did not wake up until the next morning, and the men assembled for the lynching job dispersed.

A grand jury investigation resulted, but no arrests were made. McKelvey was a brother of Sid McKelvey, who is now carrying mail at Anaheim.

JOHNSON URGES CONSCRIPTION OF WEALTH

WASHINGTON, Aug. 21.—Senator Hiram W. Johnson of California thrilling the Senate today in an address in which he declared that it was necessary "not only to conscript the blood of the nation, but we may conscript the part of the wealth of this nation that is coined out of its blood."

The assault of Senator Johnson upon the war revenue bill had not been anticipated, and caught the proponents of the measure by surprise.

He spoke to a filled chamber and his racing eloquence held all in their seats until he had concluded. He said: "The observations I desire to submit upon this measure are general in character, but none the less, from the standpoint of some of us, quite fundamental."

"We may spend twenty billion dollars, may exceed any nation in expenditure. The people are willing to bear this. But they do ask that as much as can be done on those who make profits from this war. As the British took the largest share of their expenditure from these, so should we."

England Takes 80 Per Cent
"England today takes 80 per cent for war profits. We take less than 20 per cent in this bill."

"When the draft was urged we were told the tales of the 'Princess Pats' and other fighting men for England. How persuasive was the example of England when we conscripted blood! But how little that persuasion when we conscripted wealth!"

Conscript Wealth
"With unbounded enthusiasm we conscripted in a very brief period, the youth of this land. CAPTURES 10,000 PRISONERS IN GREAT DRIVE ON AUSTRIA

Claim Equal Number Lost By Death; Enemies Ranks Wavering

GERMANY UNPREPARED FOR UNITED EFFORT

Victories Claimed By Allies In All Vital Points of the Gigantic Struggle

ROME, Aug. 21.—Italy's prisoners taken in the great drive have reached a total of 10,000, it was stated today.

Official estimates of Austrian dead and wounded are placed at this same figure as a minimum.

ALLIES UNITED ON WESTERN FRONT

LONDON, Aug. 21.—England, France, Italy and Belgium joined today in the most gigantic offensive yet directed against Germany.

The west front, from the Belgian sea coast to Switzerland, was one gigantic battle, with French, British, Belgian and Portuguese troops attacking.

Southward, Italy's most formidable offensive threw millions into a grapple over a front of almost a hundred miles.

Field Marshal Haig's drive in Flanders was pressing forward, while his Canadian troops, gripped tighter around Lens, General Petain's troops were driving fiercely out of Verdun, while steadily increasing their pressure along the Chemin des Dames and in Champagne.

Russia Alone Inactive

Russia alone of the great allied powers was not participating in the concerted assault.

Even little Rumania, through her reorganized and revived army, was making stubborn opposition to a great Teutonic attempt at encroachment on the fragment of Rumania left in allied hands.

Every one of the assaulting moves was strategically timed and co-ordinated.

The French offensive at Verdun came at a time when the Germans were massing effectives to oppose further British successes in the Lens and Ypres sectors.

Italy's offensive came when Austria, flushed with success of Teutonic machinations by which Russia's troops melted away, was diverting men from the Carso, Julian and Isonzo fronts to sweep forward beyond Galicia.

The Macedonian front was the only one today in Europe from which there was no report of an allied offensive. Military experts, however, believed General Serrail would shortly come into the great play of arms, timing his blow to best advantage.

LAUNCH THIRD POWERFUL COUNTER ATTACK

LONDON, Aug. 21.—The third and most powerful of all counter attacks by Germans to regain ground captured by the British southeast of Epelby was thrown back by British fire early today. Field Marshal Haig reported.

The assault was made after violent artillery preparation and behind a vast sheet of flame thrown by German projectors. The fighting was of the most violent character.

"We hold all positions," was Field Marshal Haig's comment in detailing repulse of the enemy attempt.

The British commander in chief reported an "improvement" in British positions north of the Ypres-Menin road, and told of a successful British raid over a wide front in the neighborhood of the St. Quentin canal. A number of prisoners were taken.

DROP BOMBS ON MUNITIONS WORKS

LONDON, Aug. 21.—British naval aeroplanes at midnight last night dropped many tons of bombs on the ammunition dump at Middlekerke, and the German works at Burgeoise, an admiralty statement announced today.

CITY TRUSTEES

MERGER OF TELEPHONE SYSTEMS WILL BE EFFECTED SOON, INTIMATES CITY ATTORNEY

FRANCHISE TAX PAID BY HOME COMPANY

CITY TAX RATE ESTABLISHED AT \$1.60 ON \$100 ASSESSED VALUE

The city of Santa Ana will raise \$108,482.96 cents on taxes this year under the \$1.60 levy voted last night by the council. This, with receipts from licenses and other sources, will take care of the operating expenses of the city and provide a fund for assisting in street improvement work where the entire expense of proposed work of this character will prove a hardship on property owners. For this purpose, 20 cents on the \$100 valuation will be collected, the board availing itself of the new law making it possible to impose the special tax. The assessed valuation of the city is \$6,780,185. With the assessed valuation less than it was last year, and with the possibility of the county clipping ten or fifteen cents from its rate of last year, the tax payments by the individual property owner will be about the same as it was last year.

The city has long been handicapped by lack of funds with which to do certain needed street improvement work, and the lower assessed valuation and the reduction in the county rate, will make it possible to secure the additional funds without imposing upon the taxpayers a rate of taxation higher than that of previous years.

Paving of Fairview avenue to provide a drain for the flood waters of the city, and paving of Bristol street to provide a second paved highway entrance to the city for farmers southwest of the city, are street improvements which the board has under consideration. In each instance, the general discussion of the city dads has been along the lines of paying a portion of the expenses incident to the improvement of these two thoroughfares.

The \$1.60 rate is distributed to the various funds as follows: General, 60 cents; street, 27c; library, 9c; fire, 8c; sewer bonds, 5c; water bonds, 19c; city hall bonds, 2c; fire bonds, 2c; music, park, advertising, 1c each; sewer fund, 5c; special fund, 20c.

MAIN STREET BRIDGE ESTIMATES VARY FROM \$45,000 TO \$53,875

With the submission of bridge plans at the meeting of the city council last night, the date for calling a bridge bond election nears. Two plans were submitted for Main street and one for the Flower street crossing of Santiago creek. The Orange County Engineering & Construction Company of this city submitted plans for each crossing and Edward Flaherty, engineer of Los Angeles, submitted one plan for Main street. The plans were referred to a committee for investigation to report at a special meeting to be held next Monday night, with the plans as the exclusive order of business.

H. Clay Kellogg represented the local firm at the meeting. The design for Main street is for an artistic structure of cement. The width is to be 42 feet, with five-foot sidewalks on each side, and the length 200 feet between abutments. The plans call for four spans. The company estimates the cost at \$45,000, but intimates that when bids are called for it will submit lower figures.

For Hannah street it submitted a design for a ten-arch bridge, the arches being eight feet. It is designed with a light wire ornament on the side, with a view to this being carried away should flood waters reach the point where the arches would not carry them, permitting the water to flow over the top of the bridge. The estimated cost is \$10,000.

Flaherty submitted a design for a four-span straight bridge. He did not consider an arch structure worthy of consideration. He estimated the cost at \$53,875, with the Pacific Electric's share of the cost at \$20,900. Two other estimates were submitted by him. One was for a 40-foot span bridge at \$10,000, with the railroad paying \$16,000, and another for a 25-foot flat slab bridge at \$25,000, with the railroad bearing \$10,000 of the cost.

or who is to receive it." E. M. Nealey, president of the Associated Charities, stated that a secretary had not yet been secured, but that one would be secured before long; that he would like to have the payments start from the first of September, by which time a secretary will have been named. He asked if the secretary of the board could not be designated as the official to receive the money.

The discussion ended with a motion by Tubbs that the organization be re-instated and that some one be deputized as a city policeman or policeman to receive the money. The Salvation Army will also continue to receive \$25 per month.

McPhee voted no on the motion and Maryatt refused to vote without knowing who was to be authorized to accept the pay.

West Santa Clara Avenue Dr. J. L. Stephenson, as spokesman for several property owners on West Santa Clara avenue present, asked to have the street repaired.

"The street is in a very dangerous condition," said Stephenson. "It is dangerous for horses traveling over it, and hard on automobiles. Only recently one of the horses of W. W. Haney stumbled and fell while traveling over the street. It is particularly bad since the city some time ago hauled in dirt from the P. E. tracks and filled in some of the chuck holes."

Tubbs: "I went over the street this afternoon and it is in very bad shape from Broadway west. The people on this street have been very patient, with the Hannah street bridge out and the road in the condition it is. They have asked this council for very little, and I think they should have some relief."

Street Superintendent O'Brien estimated that it would cost the city \$230.60 to repair the street by clipping off the bumps and oiling and graveling. The request was referred to a committee consisting of McPhee and Tubbs.

Only three cents a day—the cost to

Thursday, August 23 Is "Remnant-Day"

—On next Thursday you can pick up some exceptional values in piece goods which we offer in the form of short lengths and remnants at half price.

—We choose to close out our lines of summer goods in this way, in the form of dress patterns, waist patters, skirt patterns, and lengths for childrens wear.

—Two dresses for the price of one on Thursday!

Wash Goods Remnants at 1/2
—lengths 2 to 7 yards, of Summer Wash Goods, all fresh and in good condition.
—These are pattern lengths of Voiles in choice patterns for Summer Dresses, Half Silks, Gingham for aprons, dresses and children's wear, crepes, white voiles, lawns, piques, flaxons, and skirtings.

Good Silk Remnants at 1/2
—short lengths of dependable silks, and remnants at one-third to one-half off the regular retail prices.
—lengths for waists, skirts, and dresses, in fancy stripes and checks, plain taffetas and messalines, and sport silks. A wide variety of colors from which to choose.

Dress Goods Remnants at 1/2
—Skirt lengths and coat lengths mainly, and a few dress lengths in woollens are offered at one-third to one-half off our regular prices.
—these are plain weaves and novelties, serges and the like and mixtures, and a pattern of chinchilla for coating.

Dresses Now at Less Than 1/2
—the final "wind-up" of all our Summer dresses. Prices are cut to less than half, to ridiculous figures in some cases, for we do not want to take one of them to our new building.
—there are voiles, lawns, and linens, in white and colors, sizes ranging from 16 to 44. Priced now \$2.00 to \$7.00.

CALL ISSUED FOR CHEMISTS FOR POWDER MILL

Although a definite site has not yet been selected for the powder factory which Dwight Whiting is to build in this county, the proposition is creating more than an ordinary amount of interest in Los Angeles.

Whiting is hastening matters as rapidly as possible and definite arrangements will be under way within a very short time, it is believed.

One of the Los Angeles papers has the following to say this morning in regard to the construction of the powder mill:

Dwight Whiting, who is pledging his personal fortune to make the powder works a success, has accepted the plans for the chemical laboratories, which will be the first buildings erected.

Whiting stated yesterday that there will be two varieties of explosives manufactured and, in addition, a new shell would be created for the use of the Americans.

It is his plan to deliver the products of the plant to the government at cost, without profit of any sort. He has called for volunteers to help him make the plant a success. A small city will spring up in the vicinity of the powder works and the workers will be quartered there, fed, housed and clothed by Whiting, and given insurance against accident.

Applications will be received at the Whiting offices at 907 Brockman building, Los Angeles, although all such applications should be made in writing. At present Whiting is greatly interested in increasing his staff of chemists. This part of the work is under the supervision of Attilio Bassiri, and a number of good chemists are needed to complete the staff.

BIG PLANT PLANNED BE NEAR ARLINGTON

RIVERSIDE, Aug. 21.—The incorporation here of the Pacific Dehydrating Company, with a paid-up capital of \$250,000 and with orders assured from the War Department for the output of the company's projected plant near Arlington, marks the dawn of a new agricultural era for this portion of the orange belt.

W. J. Hole, Los Angeles capitalist and owner of the 7000-acre La Sierra Rancho, is president of the corporation, and L. V. W. Brown, vice-president. Hole states that it is planned to have the first units of the plant ready for operation within sixty or ninety days.

The formation of the company followed the action of the Chamber of Commerce in endorsing the proposal to establish the new industry and the naming of a committee to foster the financing of the project.

right of way on Fourth, east from the Santa Fe tracks to the city limits under the county specification would be acceptable to the city.

Placing of grade stakes on West Highland for the placing of a curb was deferred until it was determined by the city whether it would institute a drain south from Highland or west to Bristol.

Request of C. C. Langley that the city sweep the gutters on Stafford and Lacy streets was referred to the street committee.

A communication from the Women's Council of Defense thanking the board for its courtesy in granting it permission to hold its executive sessions in the mayor's office was received. McPhee suggested that the letter of thanks be engrossed and hung on the walls of the mayor's office to remind him that he has friends among the women of the city.

The petition to widen Seventeenth street was referred back to the petitioners for more signatures.

Street Superintendent O'Brien was given permission to have a demonstration of a Ford tractor attachment made on West Fifth street, between Baker and the bridge. The demonstration will take place at 1:30 Thursday afternoon and members of the council promised to be present.

McPhee, as chairman of the committee to whom was referred the petition for widening East Fourth street, asked for further time.

Petition for a street light at the corner of Bristol and Sixth street was denied. Sixth does not intersect Bristol.

A check from the Pacific Telephone & Telegraph Company for \$971.41 franchise tax payment was received.

NOW MAKE GASOLINE IN NORTHERN FIELD

FULLERTON, Aug. 20.—L. E. Hirt, general manager of the National Products Company of California, has returned from a business trip to Pennsylvania and announces that the National Products Company has been organized into two units, one to be known as the National Products Company of Pennsylvania and the other as the National Products Company of California.

L. E. Hirt and a group of Pennsylvania oil men came into the California oil fields a year ago and located at Brea on property leased by the Union Oil Company, and introduced a new method of making gasoline from casing head gas by the absorption method that has met with great success and established the process as one of the greatest advances in the age of oil and its products.

A gasoline of 68 to 73 gravity is produced with a very low vapor tension, so low in fact that a vessel can be placed out in the open and the evaporation loss after several days will hardly be noticeable.

The demand for this product is especially strong by aviators and motors operated at high altitudes.

The National Products Company now has two plants operating in the local field and these plants are working so nicely that the company is about to place one or two in the northern field and also in Mexico.

Every Depositor

Of the Orange County Savings & Trust Company is accorded that attention and courtesy which makes banking transactions here so pleasant and satisfactory. Accounts subject to check, large or small, are cordially invited.

Our Trust Department

Your decision after you have investigated the matter thoroughly will be to select this responsible company to act as executor of your will or trustee of your estate.

Start a Savings Account

The best way to safeguard your money is to deposit it in the Orange County Savings & Trust Co. promptly—then you know it is secure and earning interest. Start now to bank with us.

4% Interest Paid on Term Deposits

ORANGE COUNTY TRUST & SAVINGS BANK.

Shortage of Ice

We wish to notify retail purchasers of ice that during the month of August there will be a shortage of ice. The wagons will supply customers as far as possible each day, but no customer may have ice two days in succession.

Our plant is running capacity every day and we have attempted to purchase from other Southern California plants, without avail.

We ask the co-operation of the people during this time, as wholesalers are obliged to have ice to take care of their perishable goods.

of Liberty.ORGANIZED WOMAN-
POWER

When war was first declared thousands of women in clubs and church organizations all over the country sent in innumerable suggestions and offers to the national capital. It was soon realized that a definite plan was necessary to make this vast power work effectively instead of losing itself in confusion and overlapping lines of service.

The women's committee, headed by Dr. Anna Howard Shaw, was the solution hit upon by the Council of National Defense. Through that committee all the machinery already in existence was set in smooth running order. Now reports are coming in from forty-eight state chairmen concerning work actually accomplished by women in counties, cities, towns and rural districts throughout their states.

They are taking a census of the women of their respective districts. This census will show what individual women are best fitted to do and their availability for service.

They are conducting publicity bureaus from which they send out promptly information about food production and conservation, war economies, prevention of waste in every phase of house work and community work.

They are giving special attention to child labor, education, industrial welfare work among women.

In other words, the war work plans of the women's committee of the Council of National Defense have brought about such an organization of the women of the country as we have never seen before. Throughout the war it will aim to increase its efficiency, uphold industrial standards, protect the interests of women and children, so apt to be neglected in a crisis. It is centralizing and standardizing its work, teaching women's clubs how to pull together for successful accomplishment of their purposes.

The women of the country are patriotic, eager to serve and able to bear their full share of the burdens of war. And after the war, it stands to reason that they will not forget the lessons of co-operation they have learned or lose their new sense of civic responsibility.

FOR AMERICA

Certain legal authorities have raised the question whether it is constitutional to send American troops to Europe. One venerable lawyer who formerly held a high office at Washington maintains that our government cannot lawfully send abroad either the national army or the federalized National Guard.

It is of no particular value to inquire whether these experts are actuated by pro-German influence or by an honest but exaggerated respect for strict legalism. The effect is equally pernicious in either case.

Whatever the motives of these supercilious lawyers, they are trying to throw a monkey wrench into our vast, delicate and complicated war machine. And if their effort succeeded, it would mean our defeat and the defeat of the whole allied cause, with all that it signifies for the future welfare of America and the rest of the world. One little legal decision, of the sort they ask for, handed down by our supreme tribunal, would accomplish more than all the German army corps and U-boats.

It is unthinkable, of course, that this contention should be granted. The judicial authority of a great nation born to liberty and self-government will never fritter away its birthright for a mess of legalistic pottage. The point at issue will be determined not according to the narrow, literal method so dear to a certain type of legal mind, but according to the broad, human principles incarnated in our constitution by the fathers who framed it.

Once more, in a great emergency, we may safely assume, this document will demonstrate its inherent vitality. The constitution is not a mere aggregation of words. It is a living thing, whose application to American life and institutions changes with their change, while preserving its spirit inviolate.

Let the case go to trial. Let us have

STETSON

HATS

The New Stetsons for
Red-blooded Young Americans

You've a hat here that's the very spirit of Fall—smart and up-standing, in keeping with the times.

Well shaped crown, slightly tapered; brim with a slight roll; turned-over edge; 2 inch band with close reefed bow.

We are glad to get hats like this to-day.

Wear this stylish soft felt and have a Stetson derby for a change—and for the many occasions when only a derby is right.

YOU'RE INVITED to get acquainted with these fine style leaders. Try on, ask questions. Come and see first, then buy when you get ready.

The latch string hangs on the outside of our store.

STETSONS \$4.50 AND \$5.

HUFF HATS \$3.

W. A. Huff Co.

a prompt decision, so that the trouble-makers may learn as soon as possible that our fundamental law is fitted to meet this great crisis. The constitution was made for America, and not America for the constitution.

With Malice Toward None

By Henry James

Let's Play Fair

"A mere woman" writes to jump all over me, so to speak, for the sins of the editor. That isn't a square deal. Personally I have sins a-plenty, and to spare, but even a lady is not permitted to unload upon me the sins of the editor, which doubtless are numerous, and from her view fairly heinous. Her legitimate method of relief is to write to the editor a nice long letter. Perhaps he won't print it, but he will read at least a part of it, indubitably to the uplifting of his soul; which, I take it, is the real purpose of letter writers.

Reed Mistaken

Senator Reed of Missouri says that his conduct cannot be construed as disloyalty, wherein he errs grievously. As a plain American citizen I so construe it. But perhaps he is referring to disloyalty to the kaiser, in which case his position is impregnable.

The Blind Senator

According to Senator Gore of Oklahoma, the draft disorders in his state, and the outbreaks of treason there, were due to the neglect of the government to pay certain moneys due the Seminoles. Not at all, senator. They were due to your own attitude, attended as it was by the bawling of disloyal sentiments. Your constituents put your sentiments into practice, that's all.

Trousers for Women

For women engaged in manual labor to wear skirtless garments is a most sensible course, and has no relation to the attempt of the fashion designers to make trousers fashionable as feminine parlor wear. There ought to be a law against these Duffer-Gordon workers of atrocities.

Teutonic Propaganda

To a man up a tree it appears that the German propagandists had stolen the machinery of the Socialists, and swallowed the unwashed I. W. W.'s whole. They also control a part of the press, some of it printed in English and blatantly proclaiming its Americanism. A sheet of the latter type is agitating for a peace conference to which it is sure would come representatives "all bent upon" bringing peace to mankind, safety to society and permanence to our civilization. Such peace as the sheet in question has been working for from the beginning; a peace leaving the kaiser not only unchanged but enthroned. Can it be possible that such piffle deludes anybody? It all is monstrous pretense with not a trace of sincerity in it.

Loafers and Leeches

One authority, disgruntled, beyond doubt, asserts that of the men of military age, 75 per cent are unfit for the army and 2,000,000 are loafers and leeches. Well, the war will be a good thing, inasmuch as it leads to training, and causes the 2,000,000 to cease loafing and leeching. How else could they have been found and branded?

Nailed Him

Back in Indiana a man threatened to kick his wife if she did not claim exemption for him. He may not make a good soldier, but will be given every opportunity to try.

Cocktailing a Jury

When a jury of women was taken out to lunch, at each plate there was standing a seductive cocktail. Isn't

there such a thing as overdoing hospitality? There are modest and innocent women who might look a cock-tail glass in the face without suspicion that it contained anything stronger than tea, and having emptied it, be ready to dance on the table. Not that anything of this sort happened, no.

Making People Tired

There is a young woman who, by her spectacular follies, continually gets into such papers as delight in the exploitation of spectacular follies, and these papers have a habit of classifying her as "the too beautiful girl." Oh, call her the "too nearly brainless girl." No girl is too beautiful, save in the melancholy instances where she is also a silly chit.

Motor Politeness

A letter received from a young woman accustomed to tramp over the highways of Southern California complains that never has she had the offer of a lift in an automobile, although thousands have whirled by, with vacant seats. There are reasons. Many a man has extended such hospitality only to be accused of flirtation if not white slavery. There have been enough exploits by automobile blackguards to make any woman suspicious of overtures from a stranger. And even a polite man would rather be guilty of impoliteness than to be set down as a giddy idiot or a criminal.

Too Much

The assertion that readers of novels are doomed comes from the lips of a worthy pastor. What? To have additional punishment?

Strafing

Chicago proposes to pull all mention of the kaiser from text books used in the schools. Do Chicago more good to efface the record of Bill Thompson, mayor.

THE WEATHER

Fair tonight and Wednesday with westerly winds.

MULES HELP TO MAKE
SAN DIEGO DRY TOWN

SAN DIEGO, Aug. 20.—Two mules are aiding the cause of Prohibition here today.

Acting on orders sent from Washington, the government's special representatives from the Department of Justice, has given notice that all places where liquor is sold within a radius of half a mile of an army barracks must be closed.

At the corner of F and India streets there is a stable belonging to the government, in which are housed two mules to the presence of the mules, the order has come forth that all liquor establishments within the prescribed half mile must close.

This order affects all the principal hotels and cafes in the city, including the bar of the U. S. Grant Hotel, and all except half a dozen saloons and wholesale houses.

WATCHMAN KILLS
MINING ENGINEER

OAKLAND, Cal., Aug. 21.—Formal charges of murder were placed yesterday against George R. Hutchinson, aged watchman, and former mining engineer, who shot and killed William H. Storms, former state mineralogist, because, he alleged, Storms had swindled him in a mining deal.

The shooting occurred in a subway of the Key Route system where Hutchinson was watchman. The two men quarreled over the sale of some mining property belonging to Hutchinson. Storms knocked Hutchinson down and Hutchinson drew a revolver and killed Storms with his first shot.

WOULD BAR GERMANS
IN ALL INSURANCE

NEW YORK, Aug. 21.—Richard M. Hurd, chairman of the board of trustees of the American Defense Society, has written President Wilson asking him to extend the terms of his proclamation barring Germans from the marine and war risk insurance field to cover all lines of insurance.

German insurance men, Hurd says, are placed in possession of information vital to the interests of the United States in being permitted to write insurance and the payment of large sums to German companies strengthens the financial position of Germany.

OLD MAN CLAIMS SELF
DEFENSE FOR MURDER

OAKLAND, Aug. 21.—"I shot to kill because I thought it was his life or mine," George R. Hutchinson, aged prospector, told the police today, explaining why he killed W. H. Storms, former state mineralogist.

Hutchinson said he had been told by friends that Storms had hired two Indians to kill him if he should go to his mine in the Hell's Hoie country of Placer county and at the same time had been told Storms had been working the mine secretly. When he accused Storms of this, according to Hutchinson, there followed a quarrel which ended when the prospector said he shot in self-defense.

COPPER MINES MAY
RESUME WORK SOON

MIAMI, Ariz., Aug. 21.—Resumption of operations of the big copper mines in this district is apparent this afternoon from the statement of the Commander of United States troops here, saying that he had had word that many strikers wanted to return to work but feared to on account of picketing.

The commander said he would furnish protection to all who returned to work and the return of hundreds of workers and the resumption of the mine work Wednesday is believed sure.

BIRCH IS DEFENDANT,
ALLEGED FRAUD CASE

LOS ANGELES, Aug. 21.—C. W. Bozart filed suit in the Superior Court for \$25,000 damages against A. Otis Birch, charging that the latter misrepresented facts and induced him to sell notes and stock in the Lyon McKimney Smith Company, valued at more than \$30,000.

Bozart alleged in the complaint that Birch had gained control of the company and after stating that the company was nearing bankruptcy, induced him to sell his notes and stocks.

CITY MAY BUY CAR
LINES; END STRIKE

SAN FRANCISCO, Aug. 21.—Negotiations for the purchase by the city of the United Railroads lines may settle the strike of platform men within a few days.

Acting on authority granted by the city supervisors, the public utilities committee of that body today approached President Lillenthal, of the United Railroads with the city's proposal. Lillenthal expressed his readiness to begin discussion of a valuation immediately. Following the day of minor disorders during which several men were badly beaten, the tenth day of the strike began peacefully today. Car service was still badly crippled.

Meanwhile the county grand jury and the health department are investigating living conditions in car barns where strikebreakers are housed.

OIL MEN SEE VICTORY
IN COURT'S DECISION

SAN FRANCISCO, Aug. 21.—Victory for California oil men was seen today in the decision of the United States Circuit Court of Appeals in setting aside the receiverships of the North American and Consolidated Oil Companies which operate in the California field. The oil men have been fighting for relief since the Taft withdrawal order of September, 1907.

The court ruled that the government cannot regain possession of lands on which private development was done prior to 1907 and that operations on a quarter section form proof of development of an entire claim. It was declared that if this ruling is sustained by the supreme court, the government's effort to regain possession of valuable California oil lands covered by the Taft withdrawal, will fail.

GUARDSMEN RAISE
FLAG OVER I. W. W.

HIBBING, Minn., Aug. 21.—Members of a military company surrounded the I. W. W. headquarters here, and climbing to the roof, raised the American flag, amid the cheers of those who witnessed the spectacle. As the flag was raised the company stood at attention. The I. W. W. men in the hall furnished ladders for the soldiers to climb to the roof. There had been no American flag on the hall for months.

COTTON SEASON OPENS;
FIRST BRINGS 25 CENTS

EL CENTRO, Aug. 21.—H. A. Sugg of Sugg Brothers, cotton buyers of Calexico, purchased William E. Summerhill's first bale of California cotton ginned this year at 25 cents a pound. There were 438 pounds in the bale, making the cotton bring \$109.50. Summerhill sold the seed for \$22, making a total value of the first bale in Imperial Valley for 1917, \$131.50. Two bales ginned by J. T. Lee of Seelye closely followed that of Summerhill and were bought by Sugg Brothers at 23 cents.

DECLARES CONSULS
ARE PLAIN PESTS

SAN FRANCISCO, Aug. 21.—There is no chance of Franz Bopp, former German consul, and E. H. von Schaack, former vice consul, remaining in San Francisco internment camps, U. S. Attorney Preston declared today.

"They're plain pests," he told Theodore Roche, their attorney, when Roche appealed to have his clients kept here. Preston said they had worried the military authorities continually with complaints and demands for privileges.

ANNOUNCE DATE OF
CAMP OPENING SOON

CAMP FREMONT, MENLO PARK, Cal., Aug. 21.—Announcement of the exact date on which troops of the forty-first national guard division can be received at Camp Fremont is expected within 24 hours. All that remains of the necessary work is the water system and trench digging machines are making quick work of that. Army authorities plan to bring a company from each national guard regiment to the camp first, to prepare regimental bases.

STUDENT AIRMEN IN
HEAD ON COLLISION

SAN DIEGO, Aug. 21.—A kind Providence saved two student airmen at Rockwell field, North Island, during Sunday's flights, when two airplanes, flying at top speed, crashed together in mid air.

Another near accident occurred when another student pilot temporarily lost control, and after a thrilling nose dive, landed gracefully in a brush clump.

MAKE OFFICERS' CAMP
AT SANTA CLARA U.

SANTA CLARA, Aug. 21.—Preparations to place Santa Clara University on a full military basis began today following advices from Senator Phelan that the War Department plans to make the university an officers' reserve training school.

THE COUNTRY'S CALL

Red Cross and Council of Defense Affairs Now Keep Women Busy

Never before in the history of Santa Ana have its women been given so great an opportunity for demonstrating their efficiency and willingness in public service and the generous manner in which, individually and collectively, they are spending their time, their money, and their labor is a matter somewhat for pride. To be sure, this giving of themselves and their talents is a matter of duty and stern necessity, but the call of duty and of necessity is not always met with so cheerful and willing a spirit. Santa Ana is primarily a city of home makers and of home-keepers, so far as its womanhood is concerned, and the pleasant round of church, social and club affairs have been their chief occupation, outside of the home duties. Not that philanthropy has been neglected, for church and club interests are largely synonymous with philanthropy—but a sterner call has come and it is being splendidly answered.

Every day in the week, there is a throng of cheerful, earnest women at work at the armory, where, under the tireless supervision of Mrs. Magill, who is giving her whole time to this service, an immense amount of work is being turned out. The cutting of cloth and paper for the indispensable ambulance pillows, machines clicking busily away on surgical shirts and hospital clothing of all sorts, knitting needles flying as the gray wool socks grow like magic, and the classes in preparing bandages and surgical supplies are only a few of the many sorts of Red Cross activities. There is scarcely a home in Santa Ana where some Red Cross work is not being done every day, and it is a safe prediction that most club and social affairs of the coming season will have a touch of Red Cross or conservation work.

The women's auxiliary of the County Council of Defense is working just as earnestly and along equally important lines as the Red Cross. The conservation of our food supply is a matter of the gravest importance not only to our allies and to our army, but to our people who stay at home. The desire wisely to administer the resources at their hands to the advantage of the family bank account is alone a sufficient inducement to most women to practice a reasonable amount of economy. There may be a bit of selfishness attached to that motive, but now it falls right in line with the broader and more unselfish motive of saving for others as well. Back-yard and vacant lot gardens have flourished this year as never before, and the drying, canning, and preserving of the luscious burdens of back-yard fruit trees is making a

STRIKE THE LINE

Strike the line,
The game is on;
Strike it hard!
Strike, before your chance is gone;
Strike it hard!
Strike, while shouts the eager throng;
Strike, as strikes the brave and strong;
Strike, with all who hate the wrong;
Strike the line!
Strike the line,
The team's behind you;
Strike it hard!
Strike, before the foe can find you;
Strike it hard!
Strike, and tear the needy hole yonder, waiting, stands the goal;
And you're fighting for your soul;
Strike the line!
Strike the line,
The Captain's calling,
Strike it hard!
Strike, for sturdy men are falling;
Strike it hard!
Strike, for brilliant plays are few;
"Make your downs" the thing to do;
And this game is up to you;
Strike the line!
—Robt. Freeman.

small cannery or packing house of nearly every kitchen in town. The office of Mayor Visel, at the City Hall, where the auxiliary now has its headquarters, is open all day long, and members of the auxiliary are in charge from two until five in the afternoon. Large quantities of bulletins on the canning, drying and general conserving of fruits and vegetables are on hand there and may be had for the asking, and that the information contained therein is not wholly superfluous is the opinion of one member of the auxiliary, who on a recent visit to a nearby ranch found the house mother cheerfully sprinkling with sulphur the peaches she had dried.

Mrs. A. J. Lawton, president of the county organization of the woman's auxiliary, spent yesterday in Los Angeles on matters in connection with a meeting of the Los Angeles County Council. Mrs. Lawton hopes to arrange for a meeting here soon, when she is planning to have talks given by Mrs. Lillian Spangnagel and Mrs. Myra Kingman Miller of Long Beach. Mrs. Spangnagel has been appointed chairman of the Southern District Industrial Service Commission, whose duties are in connection with the supervision of working conditions of the vast number of women and girls now engaged in industrial occupations. The appointment of a Long Beach woman is particularly fortunate, on account of the huge fish canneries there. Mrs. Miller is a member of the Women's National Council, and national president of the College Women's Federation. She has but recently arrived from Washington, D. C., and will return there soon. What these women have to say will be of great interest to Orange county women.

Missionary Garden Party
The Woman's Missionary Society of the First Baptist church invites all the women and girls of the church and congregation to attend a garden party at the E. G. Holmes residence, 1104 North Main street, on Wednesday, August 22, at 2:30 p. m.

Attention, Santa Ana Lodge, No. 20, of the Fraternal Brotherhood. All members who wish to go to Balboa Tuesday evening to a wiener bake are to be at the hall at 7:00 o'clock sharp.

By order of the president,
CLYDE TURNER.
LADIES' TAILORING
Fall opening with new woolsens, new styles, at the same moderate prices. Order your suit now before the prices advance. Chas. Land, 103 East Third Street, Phone 1350.

PROGRAM ANNOUNCED
FOR PARK CONCERT
TOMORROW EVENING

An interesting program is promised for the band concert at Birch Park tomorrow evening. These mid-week concerts are increasing in popularity, the park being crowded each evening with those anxious to hear the music. Community singing is to take a prominent part in the program tomorrow evening, and the favorite Descriptive-Hunting Scene, by Bucalossi, will be played upon request, by the band. The program follows:
March—"Gippland".....Lithgow
Poor Butterfly (from Madame Butterfly).....Hubbel
Overture—Rossini's Barber of Seville.....Meyrelles
Community Singing.....Conductor,
Descriptive—A Hunting Scene (Request).....Bucalossi
Synopsis: Morning breaks peacefully. Huntsmen prepare for chase. Trumpeter sounds merry blast, which echoes from mountains. All join, "A Hunting We Will Go." Clatter of horses. Chase, capture and death. Return. King Pin—Witmark Medley No. 32
Including "Little Grey Mother," "Daughter of Machree," "Old Back Seat of the Henry Ford," "Long Trail," "Are You from Dixie?" "Good Luck; God Bless You," "Grand Father's Girl."
Finale—Star Snagled Banner.....

POTASH COMPANY FILES
SUIT AGAINST GAS CO.

Alleging that the fire and explosion which wrecked its plant at Long Beach on April 25 was the fault of the gas company, the National Kelp Potash Company yesterday filed suit against the Southern Counties Gas Company to recover damages to the amount of \$34,956.86. It is charged that while the gas company was putting a gas main in the plant a large volume of the gas escaped and was ignited by the furnace.
E. Walker, former owner of the Princess Theatre in this city, and now one of the owners of a moving picture house at Anaheim, was one of the principal stockholders in the company.

COLORED YOUTH GOING
TO TEACH ATHLETICS

Judge Thomas has received a letter from Henry M. Brooks, a colored youth of Huntington Beach, in which Brooks says that he is going to Kansas City, Mo., to teach athletics in a negro school. He says that he is in the draft, and stands ready to gladly go when called. He says he learned loyalty and the value of opportunity in Orange county. Recently Judge Thomas was instrumental in getting \$115 due Brooks from an estate in North Dakota.

John Wesley Hancock, Optometrist, near P. O., holds record of highest grades ever made in California.

FINDS NO OIL IN
DRY HOLE IN UTAH

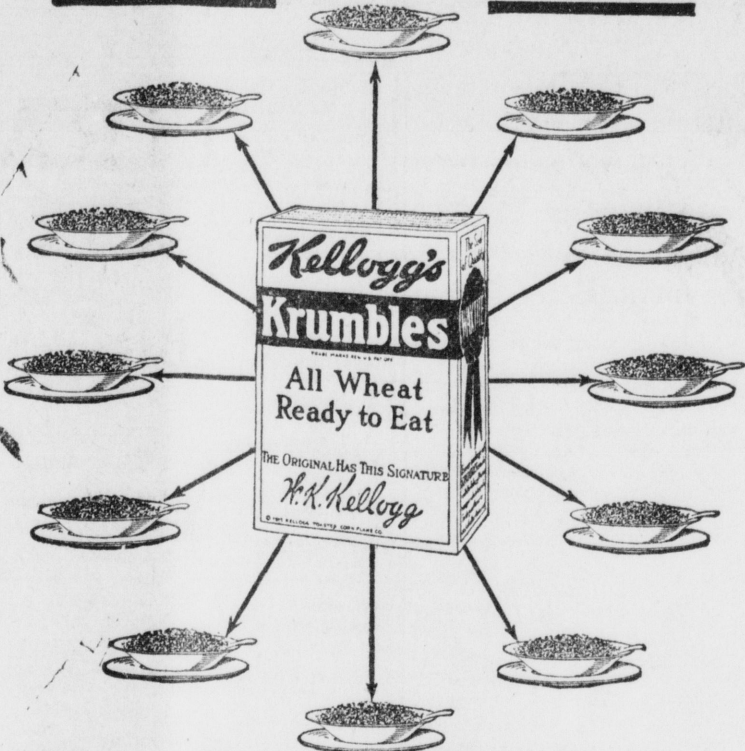

FULLERTON, Aug. 20.—Luther Courtney, a former oil operator in the local field, has returned after an absence of two years.
Mr. Courtney was called to a government position in the department of oil and gas which he filled until he accepted the superintendency of the Utah Petroleum Company, and directed the drilling of a well near Salt Lake City.
The well turned out to be a dry hole and the Utah Petroleum Company has suspended operations temporarily. Mr. Courtney will return to Utah in the near future and commence work on private interests.
Lou is well known in this vicinity, having had charge of the Graham-Lofthus property for a number of years where he brought in a number of big wells.

Lemons Whiten and Beautify the Skin!
Make Cheap Lotion

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable skin skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, smoother and beautifier.
Just try it! Make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen, and bring out the hidden roses and red hands. It is wonderful for rough, red hands. Your druggist will sell three ounces of orchard white at little cost, and any grocer will supply the lemons.

Personals

Walter J. Pease, who received a commission as second lieutenant at the training camp at the Presidio, is in the city for a short visit prior to going to American Lake, Wash., to which camp he has been assigned to duty. He will report there on the 24th inst.

Miss Harriet Rutherford of Riverside was a visitor in Santa Ana today. Miss Dorothy Hendrie left Sunday for Long Beach, where she will spend the next ten days visiting friends and enjoying the beach air.

Miss E. Gillam of Turlock is spending a few days at the home of Mrs. Smith on Ross street.

Mrs. H. L. Schlink of South Broadway has received a letter announcing the birth of a daughter to Mr. and Mrs. Earl Freeman of Portland, Ore. Mrs. Freeman was formerly Miss Mary Pennington of Le Grande, Oregon, and has visited here, where she has a large number of friends.

Deputy Sheriff J. M. Gunnert is away on a two-weeks' vacation.

Mrs. Martha Medlock and Mr. and Mrs. C. A. Gustlin motored to Los Angeles yesterday, where they spent the day.

Mrs. Henrietta Winterton of St. Louis, is here visiting her cousin, Mrs. William Pilcher.

Mrs. Harry Patty of Cedar Rapids, Ia., is a guest at the home of Mr. and Mrs. C. A. Gustlin.

Mr. and Mrs. Paul Haugh of Los Angeles were in the city today accompanied by Mr. and Mrs. J. R. Adams of Dallas. The latter were old friends of D. H. Thomas, Mrs. Haugh's father, and they expressed a desire to see the city in which Thomas made his home for many years.

Mrs. S. Mayfield of Alhambra is visiting at the H. Morse home on Riverside avenue.

Miss Helen Wells returned last week from Berkeley where she has been attending the U. C. summer school.

Mr. and Mrs. C. A. Terwilliger and Ned R. Terwilliger of Brawley are spending their vacation in Santa Ana and expect to remain here until the hot weather period in the valley is over. They are former residents of Santa Ana and are now extensively engaged in ranching near Brawley.

Harold Brown is here from Flagstaff, Ariz., for a visit with relatives.

Mrs. J. D. Thomas, Miss Lena Thomas and Mrs. H. T. Rutherford are leaving today for a two-weeks' stay at Keen Camp.

Mr. and Mrs. P. G. Beissel and J. M. Talcott are registered at Camp Curry, in Yosemite.

Mr. and Mrs. Asa Vandermast, Mrs. Walter Prince, Miss Ruby Wright, Mr. and Mrs. Walter Gilman, and Mrs. Charles Carey have just returned from a pleasant vacation trip to San Diego. Tomorrow morning Mr. and Mrs. Vandermast and Miss Wright leave for a week's outing at Balboa, where they will be joined later in the week by Mrs. Vandermast's two brothers and their wives.

NOTICE TO CONTRACTORS
Notice is hereby given that the Board of Directors of the Santiago Orange Growers' Association of Orange, Orange County, California, will receive bids for the erection and completion of a packing-house, pre-cooling plant, and ice-making plant.
Bids will be received on the complete plant or any portion thereof. Plans and specifications may be obtained of the secretary at the office of the Association at Orange, Cal. All bids are to be in by 12 o'clock m., Friday, September 7th. The Board of Directors of the Santiago Orange Growers' Association hereby reserve the right to reject any or all bids that may be presented.
G. N. ATWOOD, Secy.

FIRE DOES \$42,000
DAMAGE IN HANFORD

HANFORD, Aug. 21.—Fire of unknown origin destroyed buildings and contents of the Hanford company here yesterday with a loss estimated at \$42,000. Valuable machinery for reaping harvesters and other heavy agricultural implements was rendered useless. It was believed the blaze was probably of incendiary origin. The company manufactures engines, pumps and general irrigating machinery.

MAN HURT IN FALL
AT BREA PASSES AWAY

FULLERTON, Aug. 21.—Thomas B. Jackson of Brea, who fell twelve feet while working recently, sustaining serious internal injuries, died yesterday. The funeral will probably be held in Los Angeles, the former home of the deceased, Wednesday.

Dr. Enoch, phone 602W 411½ Main.

= Daddy's =
Bedtime Story

On a Mountain Top

[Adapted From Grimm's Fairy Tales.]

THE bedtime story was about a man who waited a year in his hut instead of finding his enchanted princess who lived in a gold castle on top of a glass mountain.

"One day the man heard some robbers fighting," daddy began. "He stuck his head out of his hut and said, 'God be with you!' The robbers looked around, but saw nobody. So they went on fighting. When he had said 'God be with you!' three times he at last decided that he must know the cause of the fight. So he asked them why they fought."

"One said he had found a stick which he had only to strike against a door and it would fly open. One said he had found a cloak which made its wearer invisible, and the third said he had found a horse which could ride over any obstacle, even up the side of the glass mountain."

"The robbers had been fighting because they could not decide whether to keep each article, each his own, or to own them in common."

"Said the man: 'I have no money to give you for these things, but I have something far more valuable than money. But you must first prove that you have these three things by letting me try them.'"

"The robbers hated to have their word doubted. So they made the man sit on the horse, put on the cloak and take the stick in his hand. Soon as he put on the cloak he was invisible. So he rode off, shouting: 'You miserable vagabonds! Now, will you stop your fighting in the woods?'"

"Of course his new horse rode right up the side of the glass mountain. When he reached the door of the gold castle of Stromberg he found it closed. But all he had to do was to strike his magic stick against it, and open it flew. He mounted the steps and rode right into the room where sat the maiden who was turned into a raven by a horrid magic."

"He still wore the magic cloak, so she could not see him. But as she was supping he put in her glass the gold ring she had once given him with her name inside it. Soon as she drained her glass she found the ring and cried: 'This is my ring! So the man who has the power to set me free from my spell must be near!'"

"The man now went into the castle yard and mounted his horse, throwing off his cloak. The maiden saw him now and cried aloud with joy, 'Now you have set me free, and at last we may celebrate our wedding day!'"

DESPONDENT WOMEN

—Constantly recurring suffering gives women "the blues." Comparatively few women realize that despondency, together with backache, headache, and that "dragging-down" feeling indicate some derangement of the feminine organs, for which Lydia E. Pinkham's Vegetable Compound is a remedy.

It is said that this famous old root and herb remedy has been the means of restoring more women to health and consequent happiness than any other remedy in the world. Don't wait until your life is wrecked by neglect and suffering. Give the Compound a trial.

H. E. Johnson has opened up a new sale barn at 709 West First. Phone 1243-J. He will have on hand for sale at all times, first class horses and mules; also hay and grain.

NEW PROJECTS OUTLINED AID FOOD SOURCES

One Step Is to Increase County Agent Force to Reach Farmers

WASHINGTON, Aug. 18.—The task of maintaining during the war an ample supply of food will be attacked on a still larger scale by the United States Department of Agriculture through a score or more of projects, under the provisions of the food production bill just enacted by Congress. While most of the projects will be extensions of present activities, some of them will represent new undertakings. The task will be to find just where the country stands insofar as the adequacy of the present food supply is concerned, to speed up the production of food crops wherever this can be done, and to stop as may be possible of the leaks through which hundreds of millions of dollars' worth

of edible products annually is wasted. Eleven million, three hundred and forty-six thousand, four hundred dollars are made available for the work in the food production bill. This money is for emergency use in addition to the funds appropriated in the regular agricultural bill for the usual activities of the Department. The bill also is distinct from the food control bill, a measure having to do chiefly with the regulation of the distribution of food.

County Agent Force
One of the most important steps to be taken in the emergency agricultural work will be the extension of the existing force of county agents—the joint field employees of the Department and the states who come into most direct contact with farmers. With the addition of the new county agents an agent will be situated in practically every agricultural county in the United States, that will co-operate to advise and assist farmers in every way possible on matters of production, conservation and marketing. The number of women county agents in rural counties will be considerably increased and other women agents will be placed in a number of the larger towns and cities. These women will stimulate the production of garden truck, poultry and other products by women and children, and will advise and instruct in regard to the most efficient methods of food utilization and conservation.

All debtors of Dr. F. E. Winters will please settle their accounts at the First National Bank.

SUPREME FIGHT TODAY THAT FOR DEMOCRACY

But One Thing of Importance Is Welfare of Masses, Says Wilson

Splendid Food For Thought In Second Lecture of Institute Here

Democracy, coming up from the enslavement of human beings; democracy, aged but a hundred years although this world's history reaches back almost 10,000 years; democracy, which is freeing this world of its greatest sin—the world must be made safe for democracy.

It was a lecture of power, founded upon long study and deep thought that was heard last night in the second of the series of lectures being given by J. Stitt Wilson at the First Methodist Church. These lectures are rightly termed an Institute of Democracy, and they are for every person who desires to attend.

Each lecture is designed to emphasize some one phase of the great subject, today the most intensely important subject that men can discuss. "In my opening address last night," said Wilson last night, "I emphasized the fact that Jesus is the bedrock of democracy. Tonight I take President Wilson's eight words as my text: 'The world must be made safe for democracy.' The world—WORLD—must be made—MUST be made safe—SAFE—for democracy—DEMOCRACY.

"There is but one supreme thing in this world—the welfare of the human race. Nothing else counts excepting as it contributes to that one thing. Tremendous Situation

"Democracy is of tremendous importance today. The world went into a slump for 1000 years after Christ came. Today a tremendous hell is loose on earth, and the world may fall into another slump. It will take tremendous devotion, wisdom and sacrifice to keep the world from that slump.

"Let me get this to you: The supreme wrong in the history of the human race has been the possession of rule and power by a few over the life and soul and destiny of the many. Human History

"All other sins are as nothing when compared to this gigantic wrong. 'Let us get a background of human history.' He called attention to Patterson's book, 'The Nemesis of Nations.' "What does Nemesis mean? Black fate. What has been the black fate of nations? Patterson says it is the fact that every government of the past has been built on top of bleeding, enslaved millions of the human race. That kind of government is autocracy.

Here the speaker sketched in brief sentences something of the history of India, Babylon, Persia, Assyria, Egypt, Greece, Rome, the Middle Ages. "It was but a few years ago that there were 4,000,000 slaves in this country. In one state death was the penalty for one who aided a slave to escape.

"Again I say, the supreme wrong has been the enslavement of the human race. The supreme curse is the presumption that any man has a right to control the destiny of any other human being. "It is a wrong idea to besmirch the patriotism of others. I am not a German-hater. But tonight let me say this: In the light of past history, the most unexampled treasure today is the amount of democracy that has been achieved. Stay by it against any and every foe.

Value of Kings
"All the kings who ever lived who were of use to humanity can be numbered on one hand. Get down beneath the thrones and read the life of the people. There is where you get the true history of a nation. Every president this country has ever had stands head and shoulders over any king who ever lived.

"Of our nearly 10,000 years of history we have had less than 100 years of democracy. Even the right to vote is of recent date. I want to impress upon you that democracy is a tender plant. Even as late as our Civil War every crowned head in Europe, those vultures of autocracy, stood hopefully by, desiring that this experiment in democracy should fail.

Democracy is the Christ-spirit organized into the needs of human beings. It is walking down the pages of history, dethroning the supreme curse set upon the many by the few. I am not a militarist, but I am ready to fight for democracy. I am fighting for democracy tonight. Give me democracy or give me death."

In closing his splendid address, Wilson read from the two documents that he declares are the greatest in human history, the Declaration of Independence and Lincoln's Gettysburg Address.

Introductory
Last night's meeting was opened with community singing, led by F. J. Hayes. City School Superintendent J. A. Cranston presided. A. B. Gardner, chairman of the institute committee, reviewed the purpose of the institute. A. M. McDermott of this city delivered a brief address in which he brought out in a splendid manner some of the points of democracy.

"This is a country of free speech," said he, "but free speech going beyond a certain point antagonizes and endangers the very things that democracy is attempting to establish.

"In a democracy there are always some who do not like what a majority does. Should we let the minority have their way? That would make democracy a farce."

In speaking of conscientious objectors, McDermott reviewed the views of Bishop Cook, who said that any person who is not willing to abide by the acts of our democracy should surrender everything they have received through it.

"Are we to live for self or humanity?" was the closing emphasis of McDermott's address.

Reliable Gas Ranges, underpriced. Chandler's, 510-516 North Main St.

BLOWS FROM A POWER HAMMER FOR DEMOCRACY

"There is but one supreme thing in the world—the welfare of the human race."

"The supreme wrong in the history of the human race has been the possession of rule power by a few over the life and soul and destiny of the many."

"The supreme curse is the presumption that any man has a right to control the destiny of any other human being."

"Democracy is the Christ-spirit organized into the needs of human beings."

"I am ready to fight for democracy. Give me democracy or give me death."

DISTRICT NO. 2 TO EXAMINE 200 MORE MEN

FULLERTON, Aug. 21.—Calls are being made for 200 additional men to be examined for District No. 2. These men had to be called on account of the number of exemptions asked and granted in the two calls already made. Notices are being sent out to some of them to report Monday, Tuesday and Wednesday of next week. This extra call for men was necessary because of the fact that there were more foreigners and married men with families exempted than was at first estimated. There is also said to be quite a number who may yet be called if the board does not get sufficient corroboration of the claims for exemption. The board will pass on these claims as rapidly as possible but will take time enough to be sure of the facts in the case.

SAID HE HAD \$2000 IN STRONG BOX HERE

LOS ANGELES, Aug. 21.—A touch of human kindness with reverse English cost Mrs. R. Winslow of 5150 Oakland street \$25 in cash and a boarder. The boarder in question answered an advertisement by Mrs. Winslow for roomers and boarders. He was easily pleased and sympathetic, and soon learned that Mrs. Winslow needed \$1100 to pay on her mortgage. So he came to the rescue—entirely of his own accord—it appears from the police report.

He told Mrs. Winslow he had two strong boxes in Santa Ana, with \$2000 cash in each. It would be a simple matter to get one of them, he said, and at once departed to get it. But upon return he suddenly remembered that the key to the box was in Santa Barbara. Having no ready cash on hand, he asked Mrs. Winslow to advance \$25 while she kept the strong box for security.

The kind-hearted philanthropist got the money and departed. After a while Mrs. Winslow opened the box and found a regulation-sized cobble stone.

ANNUAL PARADE FOR SOLDIERS OF 1861

BOSTON, Aug. 21.—The "soldiers of yesterday"—veterans of the G. A. R., more than 7,000 strong, marched in a huge parade here today—the second of the national reunion. With the veterans marched other allied organizations, among which was the Navy Medal Honor League, which is holding its annual convention in conjunction with the G. A. R. encampment.

Members of the Ladies' Auxiliary, the Sons of Veterans, Daughters of Veterans and the Woman's Relief Corps of the G. A. R., also took part in the parade.

In front of the State House the veterans were reviewed by Governor McCall; Commander-in-Chief of the G. A. R., William J. Patterson of Pittsburgh, Pa., and the city officials.

Many a young soldier just beginning the game of war watched with a thrill the veterans march by with a swing that might be envied by many a regiment of today.

In the evening the veterans will attend a camp-fire when prominent officers of the organization will speak.

STRIKE OF I. W. W. HAS LITTLE EFFECT

PORTLAND, Ore., Aug. 21.—Not more than 150 I. W. W.'s have quit work in the Northwest in response to the organization's "general strike" call.

United Press dispatches from various points in Washington, Idaho, Montana and Oregon today emphasized the complete failure of the I. W. W. plan.

Logging camps, saw mills, mines, threshing machine outfits and factories which the I. W. W. agitators attempted to organize, are running today as usual. The general strike collapsed before the army's display of authority Sunday at Spokane, where twenty-seven men were arrested. Only a few isolated districts did any men quit.

Following the ultimatum from army authorities in Spokane that street speaking there must stop the city commissioners today issued a similar order. Troops today are stationed at Wallace and Lewiston, Idaho, and in a score of towns men known to be I. W. W.'s are rounded up without ceremony.

WILL MODIFY TERMS OF SELECTIVE DRAFT

WASHINGTON, Aug. 21.—Heeding President Wilson's idea, Secretary of War Baker and Marshal General Crowder will probably issue a statement this afternoon to guide exemption boards in a more liberal policy toward married men called for the selective service examinations.

Crowder will likely advise the boards that insofar as possible they should select all single men before drawing on the married men.

AVIATION STUDENT INSTANTLY KILLED

LAYTON, O., Aug. 21.—R. L. Hayes, a student aviator of Tacoma, Wash., was instantly killed yesterday at the Wilbur Wright Aviation School, when he lost his balance while watching a rapidly-revolving propeller of an airplane and toppled over on the propeller.

Tightened All 4 Wheels in One Hour

That's what you can do, too, if you use Spoktite. It is no longer necessary to have a blacksmith or repairman tighten your wheels. Neither need your vehicle remain idle half a day or longer while the job is being done.

SPOKTITE
Swells Wood Is Not A Glue
Easily Applied by Anyone

Spoktite is a liquid compound that goes right into the wood and swells it to its original condition of tightness. It tightens loose wheels as good as new and keeps them tight.

No need to take them off or apart in order to apply Spoktite. Simply squirt it into the cracks caused by the shrinkage at the hubs and felloes. It is put up in handy spout cans to make application easy.

Make Your Wheels Safe NOW

Loose wheels are apt to collapse in dangerous places and cause serious damage, if not personal injury. Prevent such accidents by "Spoktiting" your wheels at once.

See your dealer Most garages, auto supply and hardware stores sell Spoktite. If yours do not, write our factory and we will see that you are promptly supplied.

Manufactured by the
Liquid Wheel Tightener Co.
General Offices and Factory: Modesto, California
Branches: Boston and New York City

—and
it cost only
One Dollar!

A wheel size can of Spoktite will tighten 4 wheels as good as new. And it costs only one dollar. Thousands of motorists have used it and report great success. In fact, not one single case of failure has yet been found.

BOYS THREATEN WITH DYNAMITE TO BLOW JAP HOUSE UP

Terror-Stricken Man Afraid
to Leave Home Lest the
Place Be Wrecked

Three sticks of dynamite, two boys and a Jap have been figuring in a merry war at Villa Park.

The sheriff has the dynamite, one of the boys is in the Detention Home, and tonight the Jap will sleep in peace, something he has not done for several nights past.

Willard Murdock, son of a Villa Park woman who is working in an effort to raise her family, is credited with being the ring-leader of the affair. Willard is only 9 years old. His brother, Sterling, is 12. Other boys are reported to have been concerned

in the doings that have nearly given a Jap nervous prostration.

The Jap has a watermelon patch. That is, he did have. One day the boys visited the place. The Jap says they slashed up \$50 worth of watermelons. He caught them at it, and beat them to their bicycles.

He put the bikes in his shack and told the boys that they could not have the bikes until they settled for the melons.

The boys watched until the Jap was gone, broke into the place and rescued the wheels.

Thereafter came other incidents, among them threats from the boys that they were going to blow up the Jap's house. They said they had the dynamite to do it with.

Mr. Jap was sore oppressed. He did not dare go anywhere, night or day, for fear the place would go up in a Verdun-like offensive. Whether or not he sat with loaded rifle, is not stated.

Others in the neighborhood were having trouble, too. Earl D. Gray found that a rig had been driven ruthlessly over some young trees belonging to him. He swore to a complaint that caused the arrest of Willard Murdock. The case comes up in juvenile court tomorrow.

Search by Constable Logan Jackson of Orange unearthed three sticks of dynamite in the Murdock barn. The boys said they got it from a barn at a place occupied by some Mexicans. What the Mexicans were doing with it is not known.

PIONEER RAISIN GRAPE GROWER CALLED BY DEATH

Stephen McPherson Passes
Away This Morning at His
Home at McPherson

Stephen McPherson, one of the first men in Orange county to take up the culture of grapes and oranges, and one of the few men coming to this county in the early seventies who have lived to see the county developed to the point it is today, died this morning at his home at McPherson, aged 78 years.

Funeral services will be held at Orange Thursday afternoon at 2 o'clock at the First Presbyterian church. He was one of the founders of the section which bears his name.

He was born in New York in 1829 and came to California in 1862, joining a brother at San Jose, where he engaged in teaching for three years, later teaching at Santa Clara and still later in Los Angeles. He came to what is now McPherson in December, 1872, where he and his brother bought a tract of 220 acres. The brothers engaged in raising grape growing and during the height of the raisin industry the brothers were recognized as the largest shippers in this section. They built a packing house at McPherson to handle this product.

MAN SEEKING DIVORCE

DROWNS DAY BEFORE

COURT GRANTS DECREE

RIVERSIDE, Aug. 21.—Attorney Purinton of this city started for the court house bright and early Monday morning under instructions from his client, William Newport, of Persis, who wanted to be sure and get his final decree of divorce when court opened.

Just as the attorney reached the door of the court house, a friend met him and said: "Billy Newport was drowned at Oceanside yesterday."

Death had proved more speedy than court procedure and the case of "Newport vs. Newport" has been dropped from the calendar.

BRITISH SOCIALISTS
WILL ATTEND PEACE
CONFERENCE, STATED

LONDON, Aug. 21.—By a vote of 1,234,000 to 1,231,000 the Labor Party members have decided to participate in the Stockholm peace conference.

The Labor Party will appeal to the government to grant passports for its representatives.

TO ANNOUNCE GERMAN
DECISION ON ALSACE

ZURICH, Aug. 21.—German Chancellor Michaelis will announce Germany's decision to grant autonomy to Alsace-Lorraine at this afternoon's session of the main reichstag committee, according to a special agency dispatch received here.

HOG PRICES REACH
\$20; SET NEW LIMIT

CHICAGO, Aug. 21.—Hogs sold for \$20 a hundred pounds here today, fifty cents higher than yesterday's prices. Pigs were 75 cents higher.

DANIELS PLANS TO
DOUBLE DESTROYERS

WASHINGTON, Aug. 20.—To make the American navy foremost in its destroyer force, Secretary Daniels today gathered representatives of twenty-five firms and studied means of more than doubling destroyer contracts. If he succeeds, the United States will have more destroyers than any nation, including Great Britain.

Reports Reach Him That
Threats Have Been Made
Against Him

F. A. Blake, secretary of the Olive Milling Company, and one of the men who took occasion to express his sentiments at the People's Council meeting in Orange Friday night, today was given permission to carry firearms by Sheriff Jackson.

Reports have come to Blake that someone displeased with his action had made threats to go to his home and create a "rough house," and Blake asked permission to prepare to protect himself should such attempt be made.

Following publication Saturday night of Blake's stand at the meeting, his telephone was kept busy by business men and prominent residents of this section calling him up to commend him for resenting the sentiments expressed by former Senator John D. Woaks. He also received a number of telegrams, one of which was from Geo. P. Doan of Pasadena.

"Many Pasadena and Californians and all loyal Americans are commending your action and words of censure to that treacherous traitor, Works," telegraphed Doan. "I sincerely hope your Santa Ana papers, through their telegraphic connections, will secure publication of the incident in all good newspapers in every city in the United States. Well done, Mr. Blake."

WINTERSBURG

EXPERIMENT IN RICE CULTURE SUCCESSFUL

WINTERSBURG, Aug. 21.—Herman Carter, manager of the Blue Bill Gun Club, thinks his experiment in rice culture was quite a success. He planted about two and a half acres, and although he got it in much later than the Agricultural Department at Washington advised, yet he harvested fully half a crop. Next year he plans to get the ground prepared early and thereby secure a big yield.

Herbert Farrar was operated upon at the California Hospital in Los Angeles Saturday morning, and a telephone message from his wife that same day said he passed through the ordeal well and everything seemed to be satisfactory. His many friends here anxiously await further good news.

John Cady and son Leonard arrived from the Imperial Valley Friday night, coming by auto from Brawley. Leonard has been in the valley since the close of school, and except for a coat of tan and the loss of some of the 150 pounds avoidupois he boasted when he left, is none the worse for the warm experience. John Cady will enjoy a month's vacation with his family.

George Gerhart received news that his oldest brother had passed away last week in Lawrence county, Ill. The brothers met last summer and had a good visit together. It is quite remarkable that in this family there had not been a death for fifty-five years until that of a little grandson exactly one year ago.

R. O. Wells engaged Andrew Moore to plow out his beets with the tractor, and began hauling on Thursday. He has a fine crew of Mexicans to plow, who came from near Anaheim and are living on the rancho. When through with the Wells beets, they hope to find other work in this vicinity.

R. O. Wells is paying his help the same wages this year that he did last season.

J. D. Shutt's family and Earl Gardner's family motored to Los Alamitos Sunday afternoon to visit E. G. Radford. He is putting in some strenuous hours at the factory these days and has lost seventeen pounds in weight during the last two weeks. He likes his work nevertheless, and can not be induced to give up his position.

Mr. and Mrs. C. E. McDaniel's and son of Pomona visited E. M. Fox and family Sunday. They had been on a camping trip to Big Bear Valley and were on their way home.

Monday Mr. and Mrs. Charles Gruell who were among the campers at Big Bear, arrived at the Fox home and visited until Tuesday, when they proceeded on their way to Paso Robles, their home. Charles Gruell is C. S. Hoff's uncle.

The Ladies' Aid Society of the Methodist church will meet at the

HARDWARE, SPORTING GOODS, PLUMBING,
HEATING AND SHEET METAL WORK

Parsonage Friday, August 24, at 2 o'clock. Every woman of the church and congregation is cordially invited to be present.

Mr. and Mrs. W. G. Alford and son Russell went to Santa Ana Sunday afternoon to say good-bye to William James, who leaves Tuesday for Berkeley to attend school. He and Russell were schoolmates when the James' were residents of the Smeltzer neighborhood.

Mrs. B. A. Farrar returned Thursday evening from Los Angeles and Pasadena. Monday she was the guest of her niece, Mrs. Allan Mitchell, and husband, who live in the city, and Tuesday went to Pasadena, spending the remainder of the time with Mrs. S. D. Eubanks and family, old friends and neighbors back in Ohio.

Mr. and Mrs. George Gerhart went to Long Beach Tuesday to meet their friends, Mr. and Mrs. Joseph Martin, also Mrs. Mary Ballou and Mrs. T. J. Piter of Los Angeles, and bring them out for a visit. The Martins returned to their home in Long Beach Wednesday, but the others remained until Thursday afternoon. The three girls who have been at the Gerhart home for several weeks, Doris Ethel and Leona Lerge, have gone home, their grandfather, Frederick Lerge, of Los Angeles, coming out after them. They had a most enjoyable time on the ranch, and will probably be looking forward to a similar vacation next year.

Little Elizabeth McKenzie, who has been the house guest of Mr. and Mrs. Andrew Moore, returned Thursday to Camp McKenzie at Huntington Beach. Miss Viola Walton went to Sawtelle Monday to visit a week with her grandmother, Mrs. A. E. Crossen.

Paul Frenger spent Sunday in Los Angeles.

Mrs. Nathaniel Walten visited Mr. and Mrs. Roy Walton in Santa Ana Wednesday.

E. R. Bradbury has moved his family home from the camp grounds at Huntington Beach where they have enjoyed tent life the past month.

Charles Reuther has moved his family to Los Angeles, where he has taken a better paying position.

Miss Lucile Redford was the guest of Miss Lenna Hall at Huntington Beach Tuesday.

W. G. Alford has begun harvesting his beet crop.

Miss Flossie Draper has been on the sick list but is recovering.

PROWLER SHOT; HAS
BULLET IN SHOULDER

SAWTELLE, Aug. 21.—When a prowler, discovered by a nightwatchman at a big canning plant at work on a big government food contract, answered an order to halt with a string of oaths which had a strong German accent, he was shot early today, but escaped. Today the police are looking for a German with a bullet hole in his shoulder.

HEALTH OFFICER IN
NORTH OPENS OFFICE

SANTA ROSA, Cal., Aug. 21.—Dr. Allen F. Gillihan, state district health officer named for this district under the recently enacted law providing health officers for each of six California health districts, has opened offices in the Santa Rosa court house. Del Norte, Humboldt, Mendocino, Sonoma, Napa and Lake counties form his district.

If eyes hurt, phone DR. HANCOCK Pac. 277W, for an appointment

HUGHES HOLDS MEN
TO FEDERAL DUTY

NEW YORK, Aug. 21.—In thirty-nine exemption appeals before the district draft board over which Charles E. Hughes presides, but five reversals were granted today. Two industrial claims out of nine were allowed.

FIRE CHIEF INDICTED;
EMBEZZLEMENT CHARGED

LOS ANGELES, Aug. 21.—Indicted on two counts in connection with the alleged embezzlement of a \$500 trust fund for a dying fireman, and suspended as chief of the department, Fire Chief Archie J. Eley makes firm denial of his guilt today and is preparing to fight to vindicate his name. Eley was paid the money for another and the contention is that it never reached the rightful party.
